# Get optimized revenue for the care you provide

Introducing care tracking that aligns your labor to your care plans.

From the creators of world-leading AI comes community-wide care tracking with SafelyYou Clarity™. Track care effortlessly, ensuring billing accuracy and resource optimization, without wearables-empowering you to:

- Track care delivery across your entire community
- Make data-driven decisions about resource planning
- Elevate your operational performance

SafelyYou Clarity™, powered by our Omni AI engine, introduces a new standard of protection and performance.

Know exactly when care is provided, every time.

Real-time resident and staff presence	Alerts based on care context	No interaction needed

Gain efficiency and optimize billing.

Measure staff to resident care	Initiate assessments sooner	Optimize workload

Exclusively for Leading Age California Members. Contact us today.
