Membership for Hospice Providers

There's never been a more important time to be a part of the LeadingAge national and LeadingAge California communities of nonprofit and other mission-driven organizations.

We have a broad perspective on the sector, so we understand your complex needs and what hospice members need to thrive.

Hospice provider membership gives you:

- A team fighting for your interests through impactful state and federal advocacy, including on benefit improvement and reforms that guarantee program integrity and increase access.
- Peers and partners like no other in the sector, who you can rely on to exchange knowledge and share resources—especially through our national hospice member network's monthly meetings.
- Problem solving and technical assistance on critical hospice topics such as troubleshooting licensure issues with your Congressional office or navigating GIP regulations to open an inpatient unit.
- Career-advancing education and events, including free, exclusive, or discounted access to learning on hospice-specific topics like updates to survey guidance.
- Members-only access to our new hospice quality trend report and tool that allows hospices to benchmark your quality scores against others in your state and nationally.

LeadingAge is an extraordinary advocate for hospice providers, bringing a unique voice and expertise to providers. The knowledge of both the LeadingAge staff and the network of other members is critical for our day-to-day work.

— Andy Siegel,
Goodwin Hospice

BECOME A MEMBER TODAY

To become a member contact membership@leadingageca.org or visit us online at www.leadingageca.org/join

Visit the [hospice page on leadingage.org](https://www.leadingage.org) for the latest analysis, solutions, and networking opportunities specifically for hospice providers.

WORKFORCE SOLUTIONS YOU NEED to support your day-to-day work.

LeadingAge delivers a steady stream of news, information, and tools for members. Hospice providers find all they need on topics like the GUIDE, REACH, and VBID models, apprenticeships, organizational culture, and other topics related to staff recruitment and retention.

POLICY & REGULATORY GUIDANCE to deepen your understanding of critical issues.

LeadingAge policy, regulatory and legal experts help hospice members navigate the increasingly complex aging services landscape. You'll receive guidance and technical assistance on essential topics like quality reporting, reimbursement, survey, and cross-continuum partnerships. We also advise members on state regulations and standards governing hospice and palliative care.

EDUCATION & PROFESSIONAL DEVELOPMENT to strengthen your organization.

At the LeadingAge Annual Meeting and Leadership Summit, hospice providers earn CEs while networking with peers from across the sector. On-demand learning is available anytime from the LeadingAge Knowledge Center—and it's discounted or free for members. You'll also have exclusive access to our signature Leadership Academy, which has ignited the careers of hundreds of aging services professionals.

ADVOCACY & PUBLIC RELATIONS to amplify the collective voice of providers.

LeadingAge is a leader in national hospice policy advocacy. We work closely with Congress and CMS as a trusted voice on hospice issues and how hospice connects with the rest of the continuum. Through our relationships with lawmakers, administration officials, and the press, LeadingAge elevates and illuminates the issues that matter most to hospice providers and older adults, including benefit reform, program integrity, and improving access to hospice.

BUSINESS SOLUTIONS & DISCOUNTS to help you access the right partners for the right price.

LeadingAge members get special discounts and incentives from our trusted Corporate Alliance Program partners. Members also receive a special price on the Clinical Procedure Manual, the leading clinical guidance in the field now published by LeadingAge.

PRESTIGIOUS RESEARCH & EXPERTISE to help you adopt best practices.

LeadingAge helps you apply promising practices in hospice care. The LeadingAge Center for Aging Services Technologies (CAST) offers tools that make it easy to evaluate and adopt emerging technologies. Members also participate in research and pilots led by the LeadingAge LTSS Center @UMass Boston.
